## INSURGENTS LANDED.

Some Startling News From Cuba Brought by Steamer.

## WRECK OF THE BRITISH VESSEL.

The Shooting of the Captain Said to Be an Accident—Fifteen Insurgents Wounded, but the Others Escaped and Have Not Yet Been Captured — The Insurgents' Cause Gaining Every Day.

PHILADELPHIA, April 11.—Some startling details of the successful efforts of the insurgents to gain entrance into the port of Baracoa, on the north side of Cuba, and the wreck of the small British schooner that brought them to the entrance of that place, the shooting of her master by the Spanish soldiers and the imprisonment of her entire crew, was told by the officers of the Norwegian steamship Spero, which arrived yesterday from that port.

Excitement runs high at Baracoa, and the majority of the residents of that place seem to sympathize with the insurgents. The large number that were landed from the British schooner, which founders before her name could be learned, made good their escape after a hot fight with the Spanish soldiers, 15 of whom were dangerously wounded and are in the hospital. This occurred on April 1, but up to the time the Spero left, April 5, none of them had been captured and they are supposed to be proceeding overland to El Cobre, outside of Santiago, the scene of most of the insurrection.

The condition of affairs in Baracoa, which is the center of nearly all of the banana plantations of eastern Cuba, is assuming serious shape, and nearly all the laborers are being pressed into the service of the revolution army. Over 100 men gave up work the day the Spero left and joined the ranks of the insurgents.

The harbor of Baracoa is being watched by the Spanish gunboat Espejo, and further landing of troops from the insurgent forces at that point will probably be prevented.

One of the Spero's passengers said the shooting of the English captain was an accident, as it happened while he was being taken to jail by the Spanish soldiers. He was shot through the head and instantly killed. No one in Baracoa seemed to know his name nor the name of the vessel he commanded. The sailors who were on board have all been sent into dungeons at Baracoa and are being closely guarded.

The insurgents that were on board the schooner were well armed and supplied with a lot of gold. The distance overland to Santiago is not far, but the country is mountainous in this locality and they would not be able to reinforce the insurgent forces for a week or 10 days.

On the night of April 1, a Spanish mail steamship landed at Baracoa 200 troops brought up from other sections of Cuba. The Spero visited Mata and Yumiro, two small towns in Cuba, but all was quiet there.

The Earn line steamship Monkseaton, Captain Beasley, arrived from Santiago yesterday, but no news of the condition of affairs at that place could be learned. The management of the Earn Line Steamship company has issued orders prohibiting any of the officers of these ships to give to the public information of any sort regarding the Cuban affairs.

LATEST TO REACH TAMPA, FLA. Cubans Residing There Becoming Euthanistic Over the Revolution.

TAMPA, April 11.—Late reports from Havana assert that the steamer Manuelita has just arrived from Santiago with more than 300 wounded Spaniards (soldiers). They were taken to the hospitals there, because the hospitals at Santiago are crowded.

A letter from Santiago mentions a battle at Trocones, near the Canto river, in which the Spanish general, Salcedo, with 1,000 men, engaged a band of revolutionists under Rabi, about March 26. The Spanish loss was said to be 380, while the Cuban loss was four killed, and 89 wounded. The Spanish troops were mostly boys, the letter states, and in the battle many were taken on many who were caught, and their lives spared.

Maceo has organized a large force in Santiago province. Since his arrival, 800 soldiers, who fought under him in the former revolution, have joined him. They are principally from Majaguao, Maceo's old home.

Cubans residing here, after ceasing their work, indulge in target practice with Winchesters outside the city limits.

Tuesday night, by all Cuban clubs extant, Jose Marti was elected as de-gado or president, and Benjamin Gómez as treasurer. This is their third consecutive election. Gonzalo Quesada, as secretary, acts under appointment from Marti.

The elite of Cuban society gathered last night in response to the call for a celebration of the greatest event in the history of the former revolution—the declaration of independence. The Lyceo Cubano was crowded as never before; aisle, windows and doors were packed. An audience, whose quick applause spoke patriotism, was before the speakers. Ladies, old and young, little boys and grey-headed veterans, all participated, while a Cuban band discoursed patriotic airs.

Editor Ramón Rivero, as chairman, made the first address. Jose G. Rivero read a resume of the work of the revolutionary party during the past year. Fernando Figueredo was greeted with great applause. His speech was patriotic in the extreme. A telegram was

read announcing that a big battle had been fought and won by the Cubans at Ramón de las Yagnas. A telegram from Cuban sources confirms Guillermo's death. The program continued until midnight. It was the largest meeting ever held in the Lyceo, and has created fresh interest in the cause.

## REBELS STEADILY GAINING.

A Canadian Furnishes Some Particulars of the Cuban Affairs.

NEW YORK, April 11.—The Ward line steamer Seneca, from Havana, arrived at her pier yesterday. She brought 25 passengers, the majority of whom were Cubans.

N. D. O'Neill of Brantford, Canada, was among the cabin passengers. He has been in Cuba for the past two months for his health. He said the rebels were steadily gaining ground. All foreigners who land in Havana are closely watched by the Spanish authorities and subjected to much inconvenience. Mr. O'Neill stated that when he first landed, he was constantly watched, and for 10 days two Spaniards dogged his every step.

Arrests were frequent in Havana, and the day the steamer sailed 18 Cubans were taken into custody by the Spaniards and confined in Moro castle. The local papers of Havana were not allowed to print the facts regarding the revolution, but each day their representatives were called to the palace of the governor general, who dictated to them what they might publish regarding the insurrection.

## Sympathy From Florida's Senate.

TALLAHASSEE, Fla., April 11.—The senate yesterday adopted the following resolution, introduced by Mr. Chipley: "Resolved, etc., That the senate of Florida in regular session assembled most heartily sympathizes with the Cuban patriots in their efforts to free Cuba from foreign control and to obtain for the people of that island the right of self-government, so much prized by us, believing that they have the same reasons for their actions that our forefathers had, of whose actions we are so justly proud." A few voices dissented after an extended debate.

## COATMAKERS' STRIKE.

Nearly Ten Thousand People Out In Cincinnati and More to Follow.

CINCINNATI, April 11.—With every hour the strike of the Cincinnati coatmakers steadily increases in proportions. Only a small number of shops in the city now remain open, and the chances are that within a few days all will be closed. The strike is being carried on in a thoroughly systematic manner, a perfect unanimity of purpose apparently existing in the ranks of the Coatmakers' Protective association which inaugurated it.

A conservative estimate Wednesday made by President Muench, places the strikers at 8,500. All of the members of the Coatmakers' Protective association, 200 in number, have closed their shops, which in itself means 5,000 employees out of work.

The leaders of the strike seem highly encouraged over the success they are meeting with, and the number of employees already out is variously estimated at from 5,000 to 10,000.

The present strike is different from most difficulties of the kind, in that it is a strike of employers against employers. It is not the workmen who made the demand for better prices, but their bosses.

## HER HUSBAND THE MURDERER.

A Bloody Shirt Tells Who Killed Mrs. Pauline Elwanger.\*

CROWN POINT, Ind., April 11.—The murderer of Mrs. Pauline Elwanger is still at large. The sheriff and his posse spent the night searching the woods surrounding the lake for Barney Elwanger, the husband and supposed murderer, but no clew to his whereabouts can be obtained.

Mrs. Elwanger's two brothers from Chicago, Antoine and George Dolson, arrived here last night and were immediately arrested and placed in jail. They emphatically deny the charges that they hired her husband to do the job in order to get the \$8,000 lately inherited by the murdered woman. They say they will kill the murderer of their sister if he is captured.

Residents around the lake believe that, after committing the butchery, the murderer tied a stone to his neck and succumbed in the lake. It will be dragged. By his bloody shirt left in the room, the crime is fixed on her husband.

## But One Body Rescued.

WHEELING, April 11.—A large force of men has been constantly at work clearing away the debris of the ruined buildings of Hutchinson and Chapman & Son, which fell Tuesday, but the progress was necessarily slow. Only one body has been recovered, that of Harry Cowell, the messenger boy, who was buried in the alley. He was found standing upright, with his arms elevated above his head, as if to ward off the falling bricks. Three bodies, those of Robert Winchester, Eugene Birch and Michael Horan, are still in the ruins of the Hutchinson building. The stubborn fire still burns among the debris.

## Break in the Screw Men's Strike.

NEW ORLEANS, April 11.—The first break in the white screw men, or cotton leaders' strike, which has caused such trouble on the levee in New Orleans for months past, occurred yesterday when a large number of the men agreed to work for any employer whether a member of the union or not and with the negroes.

Editor Ramón Rivero, as chairman, made the first address. Jose G. Rivero read a resume of the work of the revolutionary party during the past year. Fernando Figueredo was greeted with great applause. His speech was patriotic in the extreme. A telegram was

## PREPARED TO FIGHT

Almost a Riot in the Pomeroy Bond.

## STRIKERS MARCH ON A MINE.

Here They Induced the Twenty-Three Nonunion Men to Join Their Ranks After a Two Hours' Conference—President Ratcliff of the Ohio Miners' Association Explains the Situation.

POMEROY, O., April 11.—At 3 p. m. yesterday 400 strikers and sympathizers from Syracuse, New Haven, Hartford City, Mason and Pomeroy, massed at Minersville to persuade or force the nonunion men working in the Williams mine to lay down their tools and come out. They formed in ranks four abreast and marched up the street to the mine and formed in line to await the appearance of the miners at the close of the day's work, being forbidden by the operator to trespass on private grounds.

At 4 o'clock the men came out, and were met by a committee of seven of the strikers, who used persuasive means to induce them to join the strikers. For two hours the 23 men held out stubbornly with the 400 strikers massed about them on a vacant lot. They were assured by Master Workman Eli Thomas that they would be amply cared for in case they joined the strikers. Once a riot was nearly started by America Manly, wife of the leader of the nonunion men, parading up and down the street with a revolver under her apron, and declaring that she would shoot the first man that molested her.

Finally the nonunion men surrendered and agreed to join the strikers. This announcement was greeted by cheers, followed by a volley of pistol shots into the air, showing that the strikers were determined to succeed by persuasion or force. All parties were armed and made no attempt to conceal the fact. The affair has ended most fortunately in that there was no bloodshed.

An assault will be made on the Pencock mine Saturday, the only mine in the Bend not paying the 2-cent rate. One hundred and four men are working there.

## GLOOMY OUTLOOK.

President Ratcliff of the Ohio Miners' Association Explains the Situation.

MASILLON, O., April 11.—President Michael Ratcliff of the Ohio Miners' association says the outlook is so gloomy that it is impossible to predict from one day's end to another what is going to happen.

"The Ohio operators," Ratcliff says, "are disposed to deal fairly with the miners and will pay any price within reason, whether it is 60 cents or more, if they can secure such conditions as will enable them to compete for business. For years it was the rule to pay 13 cents more in western Pennsylvania than in Ohio, and this continued until 1887, when, because of the introduction of natural gas and for other reasons, the differential was reduced to 9 cents.

"Now these same operators in Pennsylvania propose to pay 60 cents, which is the present scale in Ohio. As a matter of course if this last named rate is agreed to the Ohio operators will propose to pay 51, and if we Ohio miners accept 51 cents Pennsylvania will want to drop to the same."

"Thus this conflict over a differential offers no promise of a settlement, but results in the grinding down of the wages of the miners, while the consumer is not unwilling to pay any price that will enable the miner to live respectably."

"Then, if we make another reduction in Ohio, local disputes will be precipitated and lockouts will have to be adjusted. Take Massillon district for instance, where the miners complain bitterly of the present rate. How much would they complain of a reduction of 9 cents?"

"The officers of the Ohio miners will soon be obliged to meet the operators and determine upon a scale. The task will be a difficult one under existing circumstances."

## HEAVY LOSS TO A SMALL TOWN.

BUSINESS Block, Hall and Two Tenement Houses Destroyed.

MONSON, Mass., April 11.—Monson, which had a disastrous fire two years ago, was again visited last night. The fire started at 11:10 o'clock and raged until after 1 o'clock this morning. The buildings burned are Green's block, formerly the old Congregational church, Gray's hall and two tenement houses.

Green's block was occupied on the first floor by Howe's meat market, Gray & Lombard's furniture store and undertaking rooms, and A. A. Fountain's barbershop. In the basement of the building were tenement apartments.

The fire started in the block, probably in the furniture store of Gray & Lombard, though the cause of the fire is unknown.

The upper story of the block was occupied by Charles Stone, bottler, and other tenants. Stone was asleep at the time of the fire breaking out and was obliged to jump from the window to save his life, receiving severe injuries.

The loss is estimated at \$25,000; insurance unknown.

EL PASO, Tex., April 11.—The trial of Victor L. Ochoa, charged with inciting a revolutionary movement into Mexico, ended yesterday. The proof seems to be most conclusive, and Ochoa will probably receive a short sentence. The Mexican government sent witnesses over to testify against him.

## JAPAN'S EIGHTH DEMAND.

No One Knows Why the Peace Negotiations Have Not Been Concluded.

WASHINGTON, April 11.—The cable reports that seven of the eight terms of peace between China and Japan have been agreed on occasions much speculation here as to the eight terms on which Japan insists. The Japanese legation has received no cables in many days, and the officials say they have no information of the eight conditions.

There is no doubt, however, that five of the most essential conditions are those given in these dispatches at the outset of the negotiations, viz: A new Japan-China treaty conceding Japan extra territorial courts in Japan; independence of Corea; an indemnity of about \$20,000,000; occupation of Port Arthur and Wei-Hai-Wei for a term of years; cession of the island of Formosa.

The five terms are now fully confirmed by the later developments of the conference. Three additional ones have now been added, and these, it is believed, relate to trade matters. Which one of these eight terms of peace is the cause of delay is not known here.

## Peace Negotiations Continue.

SHIMONOSEKI, April 11.—The peace negotiations were continued yesterday between Count Ito and Li Hung Chang. The conference lasted two hours. Viscount Mutso, one of the Japanese commissioners, was ill and was not able to attend the conference.

Captured Vessel Taken to Port Arthur.

TIENTSIN, April 11.—The British steamship Yik Sang, which was captured by a Japanese man-of-war outside of Taku, having on board 220,000 cartridges, shipped at Shanghai by a respectable German firm as "bamboo and steel," has been taken to Port Arthur.

## MORRILL,

Voorhees Says, Will be Chairman of Senate Finance Committee.

WASHINGTON, April 11.—Speaking of the reorganization of the senate, which is likely to occur owing to the changes caused by the last election, Senator Voorhees of Indiana said:

"I have no doubt the Republicans will organize the finance committee. I, for one, shall make no opposition and I do not believe that any other Democrat will. The Republicans, while not possessing a majority over all other parties in the senate, will have a plurality, and it is right that they should take the lead in shaping legislation. I expect to surrender the chairmanship of this committee to Senator Morrill at the beginning of the next session."

"Then you do not expect Mr. Morrill to relinquish his claim to the chairmanship, as has been intimated he may do?"

"I certainly do not. Why should he? He is as vigorous as many younger men, and any effort to displace him would be shameful, after his many years of service on the committee. I should personally resent a movement of that character. Furthermore, I don't believe that Senator Sherman's name in that connection has been used with his knowledge or consent."

## EXECUTIVE PARDON.

John W. Mohray Restored to Citizenship by the President.

WASHINGTON, April 11.—The president yesterday, by executive pardon, restored to citizenship John W. Mohray, who in 1889 was convicted of illegal registration in New York and sentenced to serve six years in the Elmira penitentiary and pay a fine of \$50. In the opinion of the president, the circumstances attending Mohray's offense and his conviction and sentence and the evidence of his good behavior and law-abiding disposition during the period of nearly five years' service, he suffered punishment for his crime, justifies his restoration of citizenship and pardon is granted for that purpose.

The president refused executive clemency in the case of W. F. Shaw, who in 1894 was convicted in the northern judicial district of Iowa of minting gold coin, for which he is now serving a sentence of 18 months in the penitentiary. In this case the president says there is no justification for clemency.

## EVENTS IN MEXICO.

Troops Not Yet Withdrawn From the Guatemalan Frontier.

CITY OF MEXICO, April 11.—Jesus Fuentes Muñoz, ex-minister of finance and director of the "Monte Pio," is dead.

Reports that Mexico had withdrawn troops from Guatemala frontier are premature.

Congress is now studying several concessions without subsidy for new railroads and steamship lines.

The schooner Caroline went to the bottom at the mouth of the Yuqui river. Passengers and crew saved. The cargo was a total loss.

## NOT WILLING to Fight the British.

SIMLA, April 11.—Umra Khan, chief of Jandiala, against whom a large British force is carrying on a campaign, growing out of his invasion of Chitral, has released the Sepoys recently captured by his forces. The Sepoys have reached the British forces, and report that Lieutenants Edwards and Fowler, who were also captured by Umra Khan, are still held as prisoners. The Sepoys assert that Umra Khan is unwilling to further fight the British.

LIMA, O., April 11.—The Standard Oil company yesterday advanced the price of Lima oil another 5 cents per barrel, making North Lima 77 1/2 cents and

Increasing cloudiness; warmer in central and northern portions; east winds.

The editor of the New York Evangelist shows the reasoning of a hopeful and cheerful mind in the following on the business outlook: "Improvement" is the keynote of the financial situation. There is everywhere a more confident feeling, and we may look forward to better times. The radical trouble is the one treated so vigorously by Mr. Depew in his speech at Chicago, namely, the universal chaos in business, due to the revolutionary inventions and improvements in machinery and all implements and methods. We are passing through an industrial crisis unparalleled in history, and we need all our intelligence and all our morality to solve these formidable problems which are now confronting civilization.

"It is not so much a matter of market quotations as of character in the home and in office and warehouse that is necessary to lead us out of financial quagmires and on to firm ground. And it is, therefore, a most hopeful sign that a serious spirit is seen to pervade the community, and that tokens abound of a sensitive public conscience."

### FRUITAGE OF TARIFF REFORM.

"An organization of American manufacturers has been formed," says the Pittsburgh Post, "of which we will hear more later on, for an extension of free raw material embodied in a limited way in the Wilson tariff bill. 'What we want,' says the President of the Sextro manufacturing company, of Cincinnati, 'is free lumber, free glass, free hardware, free varnish, free glue, and free materials of every kind that we use, which together with labor-saving machinery and improved systems of manufacture, would no doubt enable us to sell our furniture anywhere in the world.' The weekly paper, 'American Industries,' published several columns of letters from manufacturers in the same tone, from which it appears that the movement has a wide foundation, and is likely to be permanent. The benefit of free hides has been shown in an extraordinary development of the American leather trade with other nations. Already there are indications, although free wool is but a matter of a few months, that there is an opening abroad for American woolen manufacturers. The Chamber of Commerce of Middlesborough, England, a great iron and steel center, heard a report a few weeks ago from an agent sent to this country, that the price of pig metal at Birmingham, Ala., was \$2 per ton lower than the price of similar iron in England. The freight question remains to be adjusted, and there is every prospect of that, and that American iron will go to England just as that enterprising 'infant' shipped pig metal to the mother country before the revolutionary war."

### Sherwood, the Great Pianist.

Mr. Sherwood will be here Tuesday evening, May 14th. He will bring his own piano and the programme selected is an unusually bright and interesting one. Mr. Sherwood's conversations as to the content and interpretation of each number he plays adds greatly to the interest his playing always inspires.

Miss Moore wishes to thank the people who have so liberally subscribed and asks as a favor that all who have subscribed will send the money to her Monday, April 14th, at Hayswood Seminary and receive tickets, which may be exchanged at Nelson's for coupon tickets. If subscribers will do this it will save an immense amount of time for those who are working up the concert.

### The Colored Brother.

There is a great deal of dissatisfaction among the negro Republicans of the State. The Standard, published at Lexington, says: "We confess that we share the feeling that the colored Republicans in Kentucky have just cause of complaint when they charge that, although constituting more than one-half its voting strength, they are almost entirely overlooked in the councils of the party, and denied many places of honor, trust and responsibility."

The Hopkinsville Indicator, which is the organ of the colored Republicans of Christian County, accuses the minority of attempting to "thwart the will of the majority" at a recent meeting of the Republican County Committee.

### THE TURNPIKE QUESTION.

Mr. Editor: As to that \$80,000 for the Mason and Bracken, Maysville and Lexington, Maysville and Mt. Sterling, Maysville and Mt. Carmel, and Mason and Lewis turnpikes, I got my information from interested parties who generally know what they are talking about. I presume, however, if the county insists on paying them more money they will not refuse it.

## THE OUTLOOK.

What the Kentucky Weather Bureau Says of Crop Prospects, in Its Initial Report.

While the past winter was exceptionally severe, its effect upon crop and soil conditions was very favorable. During the greater portion of January and February the ground was covered with snow which served as a protection to winter wheat. The severe freezing weather was also beneficial to the soil, rendering it capable of easier and more thorough working than would have been the case under other conditions. It was thought that the low temperatures had injured fruit trees seriously, but it appears from reports recently received, that peach trees, and in some cases, plums and cherry were the only ones which suffered to any great extent, and in many localities even these escaped without much damage.

The amount of precipitation since January 1st, is largely deficient, being about five inches less than the normal. This fact has not however, acted as a detriment to farming operations, but on the contrary has been an advantage to many districts, for it permitted of the plowing of low grounds, which work was ordinarily very late owing to the annual overflows to which they were subject and which escaped them this spring.

The crop season of 1895, though from ten days to two weeks backward, opens under very favorable auspices, and the general outlook is promising. The past week has been cloudy with frequent and well distributed showers which have delayed farm work to some extent. The temperature was above the normal except on the 2nd, 3rd and 4th, when light frosts occurred, which however, resulted in no damage. Plowing has progressed fairly, especially in the western districts where considerable corn has been planted. Corn planting is also in progress in other sections of the State. Tobacco beds have been sown and in some few places the plants are above the ground. Reports indicate that the acreage of tobacco will be unusually large this year. The seeding of oats has been about completed and an average acreage sown. General gardening is rather backward, but potatoes are nearly all planted. Some scarcity of seed potatoes is reported.

Reports from all parts of the State are favorable as to the condition of wheat. The crop is not so forward as might be wished but the growth is healthy and vigorous.

Pastures are somewhat short, but the recent rains have improved them greatly. Trees of all kinds are beginning to show their leaves, and a few days of warm weather will bring out the blossoms of fruit trees.

So far as can be determined at present, strawberry plants have passed the severe winter without serious injury in most localities.

Warm sunny weather with occasional showers will improve all crop conditions.

### A Timely Hint to Farmers.

[Industrial American.]

Since the introduction of white burley tobacco into Kentucky the acreage has increased each year until in 1894 the State produced nearly one-half of the entire crop of the country. The crop aggregated 406,678,385 pounds, valued at \$27,661,626; Kentucky produced 183,618,425 pounds, valued at \$10,099,133.

The value of the crop of 1894 was over \$11,000,000 less than that of 1893, which was \$39,155,442.

Kentucky growers are warned against the future. If there had been a full crop last year, prices would have been very low, probably not above the cost of production. With an increased acreage being planted this year, prices will certainly drop, and we advise our farmer friends to go slow in planting tobacco, but to grow other crops.

### The Income Tax Decision.

Says the Portsmouth Times: "The decision of the Supreme Court in the income tax cases but shows the coloring of sectional influences. Those Judges living in sections where the people favor an income tax decided in its favor, while the Judges from New York, Chicago and other money centers were opposed to it. What the Constitution means is determined by the color of the glasses through which the Judges look. It is impossible to so far remove the Judge from the influence of his people as to secure a decision free from sectional or political influences."

It was reported yesterday that a brother-in-law of Charles Travis, the small-pox patient out near Bernard, was ill with the disease. The brother-in-law lives at or near Lewisburg. Dr. Adamson investigated the case and found there was no truth in the report. Five of the Travis family are now broken out with the disease, but are getting along as well as could be expected. Amos Haley, colored, of this city, has been hired to cook for and wait on the family. He will receive \$12 a week, and a suit of new clothes when he gets through.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The State Board of Equalization has increased Mason County's assessment of lands and personalty 12 per cent. and of town lots 4 per cent. The Board led the committee to believe the increase on lands and personalty would be placed at 10 per cent., but they, it seems, were simply "jollying" the committee.

**BARBOUR-FORMAN.**

The First Presbyterian Church the Scene of a Happy Marriage.

The Couple Representatives of Two of the County's Old and Honored Families.

It has been many a day since the First Presbyterian Church was the scene of a larger and more gladsome gathering than was present yesterday afternoon to witness the nuptials of Mr. J. F. Barbour, Jr., and Miss Mattie P. Forman.

The day could hardly have been more perfect for such a joyous event if the parties most interested had had the ordering of it. The bright sunshine of the gentle springtime filled every heart and was reflected in happy faces on everybody.

Within the church presented a most charming scene. An artistic arrangement of palms and other tropical plants on either side of the altar formed a pretty alcove, and here the bridal party grouped themselves about the officiating minister, and the impressive ceremony was solemnized that united the destinies of the young couple. Rev. Dr. John S. Hays, pastor of the church, officiated.

The ushers, Messrs. Horace Cochran, Sam. T. Hickman, J. Clarke Rogers and J. B. Durrett, led the procession to the altar, the bride accompanied by her father approaching from the right aisle and the groom and his best man, Mr. George Barbour, from the left. Mr. Robert Hoechlich presided at the organ.

The bride's gown was of old rose brocaded bengaline, trimmed in a darker shade of velvet, deep cream lace and rhinestone buckles. It was very "Frenchy" and was one of the most elegant wedding gowns seen in Maysville for some time.

The fair young bride is a daughter of Mr. and Mrs. Thomas Forman and is a charming representative of some of the county's old and honored families, being a granddaughter of the late Hon. George L. Forman and a great-granddaughter of ex-Governor Chambers, who was the first Chief Executive of Iowa.

The groom is a son of Mr. J. F. Barbour, Cashier of the Bank of Maysville, and is also a worthy representative of families that have been identified with Kentucky and Virginia from their earliest history. His grandfather, Hon. James Barbour, is descended from members of the Royal Council of Virginia in seven different lines, while his grandmother is a daughter of Colonel James Foster, who won distinction under General Jackson in the war of 1812.

The young couple are popular in Maysville's social circles and a host of warm friends unite in congratulations and good wishes.

After the ceremony, which was solemnized at 2:30 o'clock, a reception followed at the home of the groom's father on West Second street, where the couple received the congratulations of their relatives and a few intimate friends. At 4 o'clock the newly wedded left on their bridal trip.

Among the guests from a distance were Hon. and Mrs. Frank Alter, Mr. and Mrs. George T. Alter, Miss Blanche Alter and Mr. Henry Alter, of Cincinnati, and Miss Mattie Lee Mannen of Covington.

### IRON FURNACES ACTIVE.

Plenty of Work at the Ashland and Ironton Plants.

ASHLAND, Ky., April 8.—The windup of the present month will see more pig iron produced in this section than ever at one time before. Both of the Ashland Coal and Iron Railway Company's furnaces are running at full blast making high-grade foundry iron, and the last of the week or the first of next will see the Norton furnace, now also leased by the former company, in action as well. The twin furnaces will produce about 100 tons per day, and the Norton is good for an average of 100 tons per day. Across in Lawrence County, Ohio, the conditions are equally promising. Nearly all the furnaces are running except the Ironton and Etna.

### The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

LADIES often have their pocket books stolen while on the street. They are very apt to leave them on the counter while shopping or lay them down in the cars when traveling, but the ideal safety chain prevents all these accidents. This little novelty can also be used either as a fan holder or watch chain. See it at Ballenger's.

Ask your grocer for Traxel's steam bread.

WANTED, a good boy. Apply to P. J. Murphy.

"GOLD DUST" powder and "T. M." blacking, Calhoun's.

See the favorite gas range in operation at Fitzgerald's, the plumber.

Ask your grocer for H. Linss' machine and steam bread. It is moist and delicious.

JACOB FLAUGHER, aged eighty years, died this week at his home near Ripley.

FOR SALE—One thousand No. 1 black locust posts. Apply to H. A. Calvert, Tuckahoe, Ky.

Mr. C. D. OUTTER, of West Third street, is confined to his home with a severe spell of sickness.

SEED oats and English bluegrass for sale by T. J. Winters, at the Pyles warehouse, East Second street.

MISS IDA MEFFORD has taken room No. 11 at Hill House and is prepared to do plain sewing and dress making.

MR. H. C. BELL, who married Miss Strode of Lewisburg, has moved from Fleming County to Nicholasville.

For the best garden seeds handled in Maysville, call on H. H. Cox & Son, 45 West Second street. Send for prices.

THE People's Building Association has declared a dividend of 5% per cent., together with a return of monthly dues.

THE Y. M. C. will run an excursion to Ripley next Sunday afternoon, leaving here at 12:30. Fare, 25 cents round trip.

PREVENTIVE for small-pox: Clean off the old wall paper and put on new. J. T. Kackley & Co. will fill your prescription.

MISS CARTWRIGHT, the evangelist, is preaching at Aberdeen M. E. Church this week. The public cordially invited to hear her.

H. D. BEYERSDORFER and Elgin Anderson have leased the Dover News for a year, and will make it a straight-out Democratic paper.

ALL sisters of Friendship Lodge No. 43, R. D., will please meet at Sister McElhaney's this evening at 7 o'clock. Business of importance.

REV. WM. BEST, pastor of the Ripley Presbyterian Church, has resigned his charge, to take effect about July 1st. The resignation was occasioned by his continued ill health.

PERSONS desiring to borrow money in the fifth series of the People's Building Association should call on Robert L. Baldwin Secretary, or Jno. Duley Treasurer, and make arrangements.

ELDERS EBANKS and Lester will conduct services at Laytham Chapel, near Mayslick, next Saturday and Sunday, Saturday at 3 p. m. and Sunday at 11 a. m. and 3 p. m. Friends invited.

GARDENERS' complaints are many when they use a cheap inferior seed, but none when having used Landreth's, the best to be had at any price and guaranteed true to name. A full line at Chenoweth's drug store.

MRS. MARY ELIZABETH MADDOX, who died a few days ago at Ripley, was a resident of Maysville in 1850, her husband being John Maddox, of this city. Her maiden name was Levi and she was born at Georgetown, O.

TAKE stock in the Fifth series of the People's Building Association, commencing May 4th, 1895. Call on W. L. Thomas President, C. L. Sallee Attorney, John Duley Treasurer, Robert L. Baldwin Secretary, or any of the Directors.

A WESTERN editor has invented an internal machine which he places in an envelope and sends to those who "refuse the paper without paying for it." The machine explodes and kills the whole family, and the fragments that fall in the yard kill the dog.

THE marriage of Mr. Thomas Gilmore, of Huntington, W. Va., and Miss Mary Burns, of Covington, is announced to occur at St. Patrick's Church in the latter city on the 23d inst. Both parties formerly resided in this city, the groom being a brother of Mr. M. R. Gilmore.

MR. H. C. HAWKINS, auctioneer, reports the following sales on April 6th: For the heirs of William P. Fox, deceased, a dwelling house in Mayslick, with an adjoining lot with a doctor's office on it, for \$1,015, equal to cash. Dr. M. H. Davis was the purchaser. Also at the same time, for the same heirs, he sold 9 shares of the Sardis turnpike stock for \$5.25 per share to Mr. Logan Marshall.

You can get bargains at the Bee Hive at all times, but this week the firm is offering five great specials. See advertisement and then get some of these goods.

LET US show you some handsome novelties in sterling silver pen extractors, pen wipers, bouquet holders, key rings, key tags, cane and umbrella marks, new, and the finest stock of diamonds, gold watches and sterling silver ware at P. J. Murphy's, the jeweler. Successor to Hopper & Murphy.

THE friends of Mrs. Mary Dimmitt, of Summit Station, will regret to learn that her son, Mr. Ralph Dimmitt, who has been attending college at Georgetown, Ky., and who has been ill for some time, is not improving. A telegram to Dr. Owens yesterday requesting him to come to Georgetown was supplemented by another this morning stating that Mr. Dimmitt's condition this morning was such that he could be safely brought home.

### Interesting Addresses on China.

DR. DAVIS, who has been engaged in mission work in China for twenty years, delivered a very interesting and instructive address at the Central Presbyterian Church last evening.

At 3:30 this afternoon Dr. Davis will deliver another address on "The Social Life of the Chinese" and will illustrate his talk with pictures drawn by a Chinese artist. To-night at 7:30 o'clock, Dr. Davis will talk on "The Scriptural Principles of Foreign Missions and China's Need of the Gospel." The public invited.

Portsmouth Tribune: "The only trouble that the owners of the Ruth are having in the Portsmouth and Cincinnati trade is that the boat has frequently been found too small to handle the business offered."

Cincinnati Tribune: "Officials of the Pittsburgh packet line held a consultation yesterday afternoon in the office of Superintendent Ellison and decided to build a new boat to take the place of the ill-fated Iron Queen. The new steamer will be built at about the same cost, but will have better freight facilities. The interior will be decorated after the model of the Iron Queen."

#### RESCUED BY THE RESCUED.

A Shipwrecked Crew Saves a Disabled Steamer and all on Board.

NORFOLK, Va., April 11.—The Atlas liner Alven put into Norfolk yesterday in distress, having sprung a leak, 200 miles southeast of Hatteras on Sunday morning in the midst of a howling gale. The passengers were awakened by the engines stopping and the reported leak in the after bulkhead that the water was gaining rapidly, the case was considered hopeless. The passengers sat with life preservers in front of them at the saloon table for 28 hours, the life-boats were provisioned and swung loose at the davits. All the pumps were kept pouring three streams.

Small holes were bored through the bulkhead to the engine room to let the water in where the engineer could put another pump at work. This and the jettisoning of 300 tons of the cargo saved the ship and Captain Dow was brave and cool. The crew consisted of four sailors and but for the shipwrecked crew of the schooner Frank Pratt Lee, consisting of Captain Carson, the first and second mates and four sailors who were taken on board at Kingston and two stowaways found on the Alven, the ship would have sunk before she could have been lightened enough to save her.

The passenger list was: Robert Goodwin of New York, D. Morales of Columbia, Central America; Colonel John H. Fowler, president of the American colony at Navassa; B. Lawrence of Toronto, Mr. and Mrs. S. W. Dennett of New York, Mr. and Mrs. F. M. Potts and Mrs. Albert Smith and Miss Smith of Philadelphia, Mr. Smalley, representing a fruit house in Kingston, and two colored children from Jamaica.

Purses and letters of thanks from the passengers were presented to Captain Dow and Engineer George Scott of the Alven.

#### GREAT DESTRUCTION DONE.

Storm of Wind, Hail, Thunder and Lightning in Washington.

SEATTLE, Wash., April 11.—A storm of wind, rain, hail, thunder and lightning of unprecedented severity, burst over this city about 5:30 p. m. yesterday, and although it lasted but half an hour, it lashed the sound into a fury and tore down telegraph and telephone wires in all directions, completely isolating the city from the rest of the world for the night.

The wind reached a velocity of 60 miles an hour. Chimneys were blown down, plate glass windows burst in and tin roofs torn off. A train struck a tree on the Seattle, Lake Shore and Eastern road at Lake station and knocked several cars into Lake Washington. About 800 telephones in the city were burned out at the switch board.

#### Differed on Two Glasses of Beer.

OMAHA, April 11.—An attempt was made yesterday to settle the strike of the journeymen brewers. All the boss-brewers of the city met and drew up a contract to be signed by the union. This contract proved satisfactory except one clause, which provided that workmen be furnished beer at 9, 11, 12, 2, 4 and 6 o'clock. The workmen refused to sign unless the clause was changed to free beer every hour. The workmen in every brewery in the city are out.

Price of Harness and Saddles Increased.

DECATUR, Ills., April 11.—The executive committee of the Wholesale Saddlery association of the United States has concluded its session and sent a circular to all members recommending an increase of prices from 5 to 20 per cent, the average being not less than 12-12 per cent. This action was taken after getting replies from all members as to the advisability to the increase. This increase in the price of leather makes an increase in the price of harness and saddlery necessary. The association includes nearly the entire wholesale trade.

#### Two Hundred Men on a Strike.

PHILADELPHIA, April 11.—Two hundred men, employed in the tapestry department of John and James Dobson's carpet mills, at the Falls of Shuykill, have gone on a strike because of the refusal of the firm to restore the scale of wages paid before a 15 per cent reduction was made about a year ago. There is talk among the men of closing down the whole plant, which employs about 1,800 hands, out of sympathy with the strike.

#### Two Tramps Burned to Death.

SPRINGFIELD, O., April 11.—Considerable excitement exists at Lagonda, a suburb, over the finding of charred remains, presumably those of two tramps, in the ashes of a big strawstack on George Raup's farm. It was set on fire by a tramp, who was seen leaving the scene, and the remains were found where a big tunnel had been eaten in. An investigation is in progress.

#### Death Under Peculiar Circumstances.

PORTLAND, Ind., April 11.—James Parish, a farmer living north of here, died here under strange circumstances. Some time ago he was seized with an attack of the grippe, and last week began bleeding at the nose. The flow continued from time to time, and all efforts to stop it were in vain. It increased so much as to cause the patient's death. He was 47 years old.

#### Brutal Six-Round Fight.

KANSAS CITY, April 11.—Lan Agnew, of Chicago, a protege of Parson Davies, and "Milkey" Fete of Kansas City, lightweights, fought a brutal six-round prize fight here last night. Agnew had the best of the go, but Fete fouled him in every round. In the sixth round Fete was knocked down 10 times, but Agnew could not knock him out. The fight became so brutal in the sixth round that Referee Nick Burley gave the fight to Agnew on a foul. The purse was \$250.

#### Blind From Natural Causes.

CALDWELL, O., April 11.—It has developed since the coroner's examination that young Stevens, who was reported murdered by his father, died from natural causes. The boy received a whipping from his father, went into convulsions and died in 48 hours. Hence the report of murder started.

#### He Was Murdered.

NEW YORK, April 11.—The autopsy performed upon the body of Andrew Howe, who died in Bellevue hospital Tuesday, indicates that he was murdered. The theory is that he was snatched for the purpose of robbery. Howe was an old time New Yorker, and was well known in dry goods circles, in which he was formerly engaged. Late he had been a commission agent in the linen line. He has a mother and sister living in Chicago.

#### Brooklyn Rioters Sentenced.

BROOKLYN, April 11.—Judge Moore yesterday afternoon sentenced 12 of the Brooklyn streetcar rioters to terms in the penitentiary ranging from 60 days to one year and three months.

#### Melancholia's Shot.

NEW YORK, April 11.—Wynman Scollay, aged 35, of 37 West Tenth street, a son of George W. Scollay, a retired physician, shot himself in the temple at 8:30 o'clock, killing himself instantly. He had been suffering from extreme melancholia for the past three months. He has two married sisters living in St. Louis.

#### Life For Life.

GAINESVILLE, Fla., April 11.—Grant Griffin, colored, who cold-bloodedly murdered William Tibbs, a negro gambler, at La Cross on Nov. 6, was hanged privately in the county jail here yesterday.

#### Plenty Money.

ACCIDENT INS. TICKETS. W. R. WARDER.

#### IT'S A CRAZE.

An Ohio Town Catches the Bloomers Fever, and the Men Cannot Stop It.

ELMORE, O., April 9.—The town Elmore is hovering on the verge of a costume revolution, and the great question that will soon agitate sewing circles is, "Do you wear pants?" An order was given to-day for twenty-four bloomer suits, which, with a few already in the place, will thoroughly leaven the best society of the town. The bicycle craze was responsible for the first suits used in Elmore, but now the wearing of the new costume is promised for both work and play.

A society has been formed to push the adoption of knickerbockers, and with the missionary work now going on many accessions are expected after the first plunge has been taken by the more advanced parties. The recent election hastened the matter by the good-natured taunting that some of the ladies were called upon to bear when they exercised their new suffrage powers in school matters.

The ladies have adopted a modified costume, consisting of gracefully draping knickerbockers with a loose blouse, a short-skirted coat which may or may not be worn, according to individual fancy. The ladies look forward to facing adverse criticism and derision, and say that the beauty, convenience and healthfulness of the costume will conquer the prudishness of husbands and fathers.

Mr. DENNIS FITZGERALD has sold a two-story residence in the "Brick Row" on West Second street to Mr. James Cullen for \$1,900. Mr. F. Devine, agent, made the sale.

#### A Bit of Eltherto Unpublished History of the War of 1812.

It is a chapter of semi-official, semi-domestic history, and it is vaunted for by a granddaughter of the hero's family line, a Chicagoan who now lives on Dearborn avenue.

Prominent in Mr. Madison's cabinet sat, fourscore years ago, Secretary of the Navy Jones, the son of a famous shipbuilder, a man gallant not only in spirit, but in dress and manner. His fitness for his office is attested by the naval histories of the war of 1812. But the successful secretary had more wit than hair, and a wig was a sine qua non of his political and social life. All went well with this informant until the luckless August day in 1814 when the British marched from Bladensburg upon Washington.

It will be remembered that President Madison and his cabinet stood not upon the order of their going on that occasion, but went at once to a very retired summer resort. Every one knows how Lady "Dolly" remained behind long enough to save some valuable White House portraits from having their eyes put out by English bayonets, but few have heard how collected Mrs. Secretary Jones was in this national crisis.

Presence of mind is said to be promoted by absence of body. This lady displayed in the face of danger presence of both mind and body. As the secretary emerged from his doorway, his hands full of such family valuables as his agitated condition had allowed him to collect, Mrs. Jones confronted him with the appalling words:

"My dear, you have forgotten my slippers. You must go back and get them."

General Ross was almost at his door bringing imprisonment or death, but the unhappy man turned back to hunt the slippers, which, it is only fair to Mrs. Jones to add, were adorned with diamond buckles. In his headlong quest for these treasures—which he secured—his wig dropped off in a dark corner, and he did not dare to take time to hunt for it nor to attempt the purchase of another. The shorn appearance of the secretary, hitherto faultless in all appointments of dress, is said to have very much lessened the melancholy of the cabinet journey. It is further asserted that during the time of retirement, no matter how depressed any member of the presidential party felt over public and private woes, if he but glanced at Secretary Jones' peal of irresistible laughter was sure to follow and that the despoiled Adonis cordially joined in these bursts of merriment.—Chicago Tribune.

#### Prize Fighter Arrested.

MONTRÉAL, April 11.—Pat Griffin, the prize fighter of Boston, has been arrested on complaint of his backer, Fred Clarke, for assault and obtaining money under false pretenses. Clarke backed him for \$250 in a fight with Costello Monday night on the understanding he would pay back the money from his share of the gate receipts. When Clarke asked him if Pat Griffin knocked him down.

They have recently made gold leaf by electro-chemical processes as thin as four-millionths of an inch thick, if you can imagine that. It was exactly 1.2-798,000 of an inch. The highest previous thinness ever reached was 1-307,050. This is 10,584 times thinner than ordinary thin writing paper.—Journal of Education.

#### Unconscious Candor.

"Some women can't believe a word their husbands say," she remarked.

"Well," confided the other, "I'm not quite so badly off as that. My husband talks in his sleep occasionally."
